

Barrel Race America - A Tutorial

The BRA software has a lot of options and variations, and can seem complicated to the first time user. Here is a fairly typical example of setting up and running a show that cuts through a lot of the fog. Details for the various options and setting can be found in the User Guide.

Assumptions:

1. The show date is Sept. 14, 2013.
2. There will be an Open class in a 5-D structure. The time splits are standard, 0.5 to the 2nd D, 1.0 to the 3rd D, 1.5 to the 4th D and 2.0 to the 5th D. These are all added to the fastest time to establish the top of each D.
3. In addition, there will be a Senior class and a Youth class, both in a 4-D structure. The time splits for these classes is 0.5 to the 2nd D, 1.0 to the 3rd D, and 2.0 to the 4th D. The rider may optionally carry their time from the Open class into the Youth or Senior classes.
4. The entry fee for the Open is \$25.00, and \$15.00 for the Youth and Senior.
5. There is \$300.00 in added money for the Open, and none for the Youth and Senior.
6. For all classes, the producer keeps 30% of the entry fee and the remainder goes into the payout pool. The Payout Pool is split as follows:

For the Open, 25% goes to the 1-D pool, 23% goes to the 2-D pool, 20% goes to the 3-D pool, 18% goes to the 4-D pool, and 14% goes to the 5-D Pool.

For the Youth and Senior, 35% goes to the 1D pool, 30% goes to the 2D pool, 20% goes to the 3D pool and 15% goes to the 4D pool.
7. For all classes, if there are 13 or more riders, the producer will pay 2 places in each 'D'. If there are 21 or more riders, the producer will pay 3 places in each 'D'. If there are 41 or more riders, the producer will pay 4 places in each 'D', etc.. This will become clearer when you edit the payout table.

Show Setup

Here are the steps necessary to set up the show:

Start up the software by double clicking on the Barrel Race America icon. You should see the main menu.

Click on “Show Setup”, you will get a screen similar to this:

Make the following changes:

1. In the Producer percentage field, change the value to 0.300 to indicate you are keeping 30% and paying out 70%.
2. In the Places/Rider Count section, make sure the counts agree with the above. The way you read it is: "If there are 13 or more riders, pay 2 places in each D, if there are 21 or more riders, pay 3 places in each D, if there are 41 or more riders, pay 4 places in each D, etc".
3. If any of the boxes on the bottom are checked, uncheck them.

The resulting screen should look like this:

You can either type in a brand new entry (not on the database) and click on “Use Typed Rider and Horse Names”, or you can just double click one of the entries in the list to take that rider from your database and put them in the show. For demonstration purposes, we will double click Heather Arnott on “Heather-1”. It will return to the signup screen with her information filled in.

Repeat this process until you have 10-15 riders entered in the Open class and 5-10 entered in the Youth and Senior classes. At the end, we click on “Exit Rider Signup” to return to the main menu.

Running the Classes.

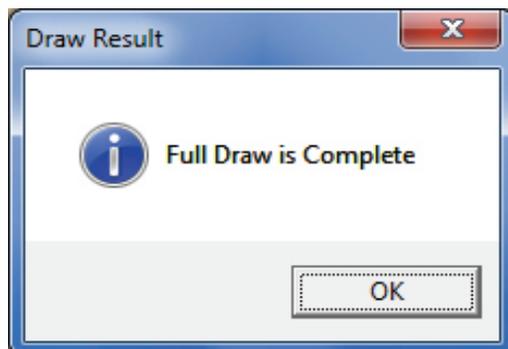

Here are the steps to run the Events for the show. These steps will be repeated for each class. First, you need to choose the event you are going to run. Click on the “Change Event” button. You’ll see a screen like this:

Check the Box for the class you're going to run (Open, Youth or Senior). Then Click "Exit Event Selection" to return to the main menu. That class will become the current Event (shown in the green area). All event-specific activities will be for that event until it is changed. In this case, we've chosen the Open class.

First we want to draw the ride order. Click on "Draw For an Event" to do so. You'll get a little notification screen that it was completed.

Now we want to print the announcers list to that the people in the booth have a place to write the times for backup purposes. To do so, we click on “Announcer’s List”. You’ll get a screen like this:
